# EFG Hermes Holding

# **EFGHERMES**

## Group Performance Highlights

- EFG Hermes posts another set of resilient financial results; with the Group revenues rising 21% Y-o-Y to reach EGP1.4 billion, underpinned by strong revenues generated from the buy-side, Capital Markets and the NBFIs;
- Buy-side revenues shot up 363% Y-o-Y to EGP446 million in 3Q20, on the back of strong revenues recorded by the Private Equity; with its revenues reaching EGP381 million in 3Q20 up from EGP23 million a year earlier, on realized incentive fees of EGP349 million following Vortex Solar's exit. Asset Management revenues declined 11% Y-o-Y to EGP65 million, due to lower management and incentive fees booked by FIM;
- ≡ Sell-side revenues declined 43% Y-o-Y to EGP281 million in 3Q20, on lower Brokerage revenues, which declined 24% Y-o-Y to EGP243 million, on lower revenue generated by MENA markets and the Structured Products desk. Investment Banking revenues decreased 78% Y-o-Y to EGP38 million in 3Q20, on lower advisory fees and on a very strong comparable quarter, 3Q19, which included a number of large transactions;
- NBFIs revenues added 12% Y-o-Y to record EGP335 million in 3Q20; supported mainly by valU's robust growth, as its revenues grew 410% Y-o-Y to report EGP27 million in 3Q20. Tanmeyah's revenues resumed growth, inching up 3% Y-o-Y to reach EGP261 million in 3Q20. Factoring revenues increased 4x Y-o-Y to come at EGP8 million in 3Q20, while Leasing revenues came flat Y-o-Y at EGP39 million in 3Q20;
- Capital markets & treasury revenues rose 22% Y-o-Y to EGP372 million in 3Q20, mainly on higher unrealized gains from the move of seed capital/Investments to Investments through Profit & Loss (FVTPL) from Investments through OCI (FVTOCI); and despite lower interest received from Structured Products;
- Group operating expenses rose 19% Y-o-Y to EGP878 million in 3Q20, on higher employee expenses and higher other operating expenses. However, employee expenses/revenues came at 45%, well below the 50% level;
- ≡ With the increase in revenues surpassing the increase in expenses, the Group net operating profit rose 23% Y-o-Y to EGP556 million in 3Q20. Thus, the Group net profit after tax and minority interest increased 18% Y-o-Y to reach EGP422 million in 3Q20. The increase in the bottom line profitability was pressured by a deferred tax expense from unrealized gains on seed capital in the current period, versus a deferred tax gain stemming from fx-losses in the comparable period.
